# TRM320 CONNECTIONS

The TRM320 integrate the connectors and supports the functions for the:

- Flap lever FLP320
- Speed Brake Lever SBR320
- Cockpit Door panel CDR320
- Landing Gear Gravity Extension Handle GGR320.

The above mentioned products are extensions of the TRM320 and they require it to works, where the TRM320 itself is an expansion modules and requires CPflight FCU320 to operate:
