

BOEING737 FUEL TEMP PANEL

IMPORTANT NOTE:

CPflight FUEL TEMP is an expansion module intended for CPflight daisy chain connection and it requires CPflight ELECTRICAL PANEL to operate. The ELECTRICAL PANEL performs the function of "central unit" for all the other modules that make the overhead. FUEL TEMP does not use any computer's inputs like USB port etc or

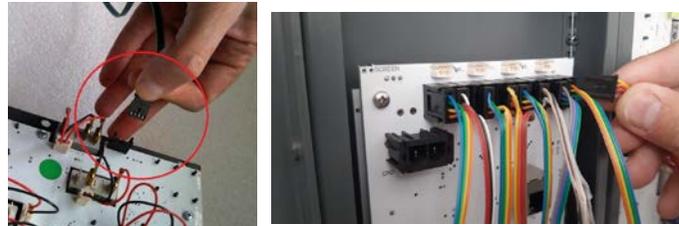

power supply adapter, it connects through the provided 4 pole flat cable to the ELECTRICAL PANEL that is the only module connected to the ethernet.... ELECTRICAL PANEL, all other B737 overhead panels, frame and Back-cover are available on CPflight website.

FUEL TEMP is equipped with:

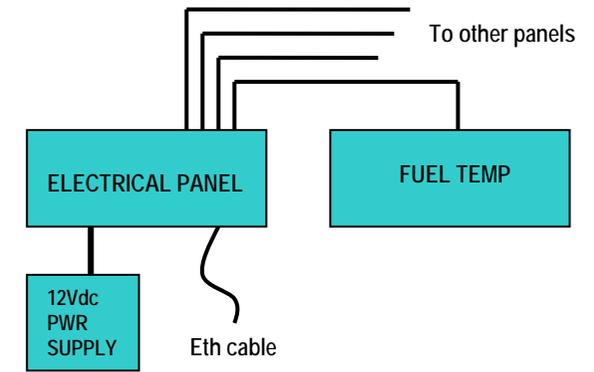

- Custom high resolution warm white backlighting frontplate
- The only overhead hardware with annunciators pushbutton test
- 6 LOW PRESSURE ANNUNCIATORS, RIGHT AND LEFT FILTER BYPASS, BLUE DOUBLE INTENSITY RIGHT AND LEFT ENG VALVE CLOSED, RIGHT AND LEFT SPAR VALVE CLOSED and VALVE OPEN.
- 6 original APEM LOCK-LOCK switches for FUEL PUMPS selection
- CROSS FEED BACKLIGHTED knob
- FUEL TEMP backlighted gauge
- Painted 1/4 Turn Original Fasteners (6 pieces provided)
- Provided with a 4 pole cable for daisy chain interface with the main module (Boeing737 ELECTRICAL PANEL)
- Compatible with Prosim737 V3, Project Magenta, PMDG737NGX, PMDG737NGX series and iFly737. Time by time could be added new compatibility.

HOW CONNECT

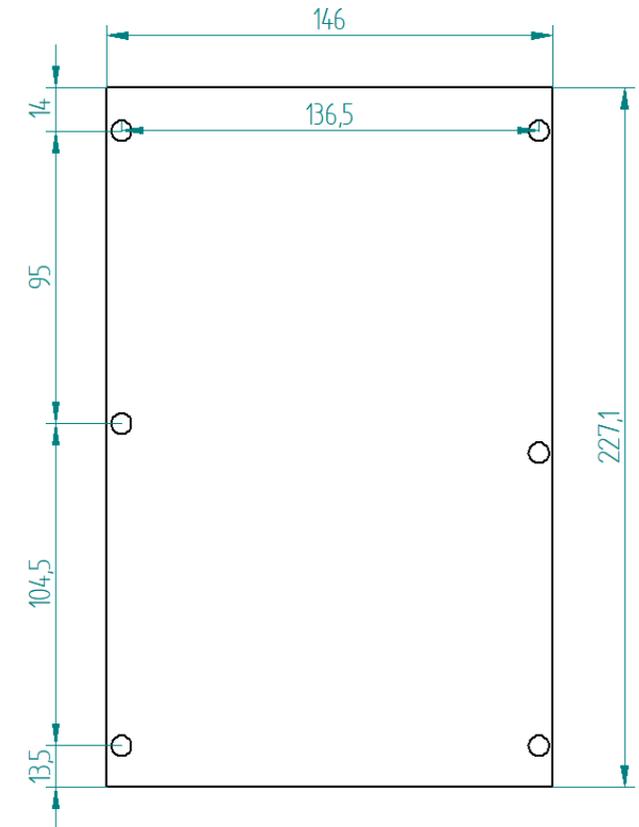

Connect the FUEL TEMP board to the ELECTRICAL PANEL using the provided 4 pole. Connection is very simple and thanks to a guided insertion key on the connector is not possible to reverse the cable polarity (see red circle in the pictures on the next page). The cable can be connected to any of the connectors arranged on ELECTRICAL PANEL.

DIMENSIONS

This manual is intended for Flight Simulator use only and may not be used in any real world aviation application. The authors are not responsible for any errors or omissions.

FOREWORD

Thank you for your choice; FUEL TEMP board is a full scale replica of Boeing 737 Forward Overhead Fuel Temp panel, look and functionality are reproduced with high details. Through this hardware you will meet a realism never experienced before in your flight with Flight Simulator.

Note: This manual contains the latest information at the time of drafting. Due to the continuous evolving of the product some features could be modified. Eventual later information can be found at CPflight website www.cpfight.com
